Business partnership between ICCP and IT Governance Group (ITGG) of SOX Institute to jointly develop new certification programs and examinations

The ICCP has entered into a major partnership with IT Governance Group (ITGG) to produce two new certification exams, the IT Governance exam and IT Compliance exam. These exams will be requirements to qualify for ITGG's base level and pro level IT Compliance certification and IT Governance certification.

ITGG is the division of the SOX Institute focused on providing training and certification in the fields of IT Governance and IT Compliance based on industry standard best practices. SOX Institute was founded in 2003 with a mission of encouraging corporate governance.

The ICCP is a not-for-profit organization that has been testing computer programmers, systems analysts, I.T. Managers and systems developers since 1973.

Passing the examinations also allows an individual to simultaneously work towards a college degree in computing or business information systems.

For more information on ICCP certifications and how to prepare to write its examinations, please visit www.iccp.org.

For more information on ITGG, please visit their web site at www.itgg.org.
